50. I have spent three years at Budo Junior School. *(Rewrite using:....since...)*

SECTION B

51. **Read the passage below and in full sentences answer the questions that follow.**

Tom's evening.

“ Goodbye! See you tomorrow” Tom said to his friends as he alighted from the school bus. It took him only ten minutes to walk to his house. Unlike the other days, today he found his father at home. Mother was there as usual. She was making supper in the kitchen. Usually his father comes home at seven o'clock. “Good evening, father!” Tom shouted with excitement. “You are early today. How was your day?” “Good evening, Tom,” Father responded equally happy. “My day was fine – thank you Tom. I finished the day's work early and got a lift from a friend. Did you have a good day, Tom?” “Yes, father, the lessons were good. I got almost everything right.” Tom answered. “Only that I missed a few sums but I made corrections. I also have some homework to do tonight.” Tom responded as he entered his room and changed into home clothes. He came out and went to the kitchen to greet and assist his mother.

Later, Tom took a shower and joined his father in the living room. He found him busy reading a newspaper. Tom wanted to watch the seven o'clock news but he didn't want to disturb his father. “Excuse me dad, may I please switch on the television?” Tom requested politely.

“Oh yes! Go ahead and switch it on. It is news time.”

“Thank you, dad,” Tom said as he switched on the TV.

Mother joined them as the news started. She served the family a delicious meal that they really enjoyed. “Thank you mother, the meal was wonderful!” Tom said. “Thanks again, dear,” father added.

“You are welcome!” mother said with a smile on her face.

Tom moved to his room to do his homework as the mother cleared the table. She later went to Tom's room and looked at his books. “Congratulations on your good work! You got almost everything right, son. This is very good of you.

I am really proud of you, you however need to be more keen with your sums," Mother commended.

"Thank you mother, I will be keen next time."

Questions:

1. What is the passage about?
2. How did Tom travel back to his home?
3. What did Tom find his mother doing?
4. Why were Tom's lessons good that day?
5. Where was Tom's father reading newspapers?

53. **Read the poem and then answer the questions about it.**

OH! OH! EXAMS AGAIN!!

The day has come
Children are panicking
They aren't ready
For they haven't revised their notes.

They are scared of getting poor marks
A bad report to take home
For the parents won't be happy
And the children won't like it.

Oh God! Help us
That we may remember
And write only correct answers
Then Your name will be glorified.

Questions:

- a. Give the title of the poem.
- b. Why are the children panicking?
- c. How many lines are in each stanza?

- i) List elements of set N.
- ii) How many elements are in set M?
- iii) Write the common members of the two sets.
- iv) Put the two sets on a Venn diagram.

3. Given that: $P = \{ 2, 4, 6, 8, 10 \}$

$$R = \{ 1, 2, 3, 4, 5 \}$$

$$S = \{ 5, 4, 3, 2, 1 \}$$

- i) Describe
 - i. Find $P \cap R$
 - iii. Find $R \cup S$

4a) Describe the shaded parts.

b) Draw and shade the region of

(i) $M - N$

(ii) $A \cup B$

5. a) Write the place value of the underlined digit in each.
 (i) 3 4 6 3 (ii) 4 5 6 8 9 (iii) 9 6 4 3 7
- b) Write the value of the underlined digits.
 (i) 3 4 9 (ii) 6 9 4 3
6. a) Expand the following as instructed.
 i) 6 9 3 (using values) (ii) 5 6 7 5 (using place values)
- b) Write the following as single numbers.
 i) $(3 \times 10,000) + (9 \times 10) + (4 \times 1)$
 ii) $9,000 + 70,000 + 20 + 600$
7. a) Change the following to Roman numerals.
 i) 53 (ii) 94 (iii) 68
- b) Write the following in Hindu – Arabic - numerals.
 i) LXXXIX (ii) CLV
8. **Work out and give your answers in Roman numerals.**
 i) LXI + XXV (ii) XXIX - XIV
 iii) XC - LXXX (iv) XXXV x XLII
 ii) IV + V + VIII
9. **Round off the following as instructed;**
 i) 34 (nearest tens) (ii) 148 (nearest tens)
 iii) 9 9 9 (nearest hundreds) (iv) 2 9 4 6 (nearest thousand)
 iii) 9 2 4 4 (nearest thousands)
10. **Work out:**
 i) $9\ 8\ 6\ 7 + 2\ 6\ 7\ 3$ ii) $60214 - 15835$
 iii) 349×10 iv) 187×42
 v) $2935 \div 5$

SCIENCE – P.4

1.
 - a) What is plant propagation?
 - b) Mention any one type of plant propagation.
 - c) Name any two methods of vegetative propagation.
2. Secondary roots are roots that develop from the stems, branches, leaves or nodes of a plant. Give three examples of secondary roots.
