

**NAME:** \_\_\_\_\_ **STREAM:** \_\_\_\_\_

**SECTION A.**

1. Identify the type of soil used for plant growth.  
.....
2. Why is too much sunshine a disadvantage in crop production?  
.....
3. How many main body parts has a housefly.  
.....
4. What is an infectious disease?  
.....
5. Why do animals move from one place to another?  
.....
6. What is a **joint**?  
.....
7. Which gas escapes when one opens a bottle of soda?  
.....
8. Write down any one type of mosquito.  
.....
9. Identify the sensory organ in man used for smelling.  
.....
10. Why do some plants climb others?  
.....
11. Name the garden tool shown below.  
.....
12. What name is given to a part of a plant which grows above the ground?  
.....
13. Mention any one example of an irregular object.  
.....
14. How can water be made safe for drinking?  
.....

15. Which type of clouds brings us rain?

.....

16. Give one characteristic of a living thing.

.....

17. Name the type of germination shown below.

.....

18. Mention one material used to clean our mouth.

.....

19. Apart from dysentery, mention any other disease which can be got by drinking contaminated water.

.....

20. What is the main source of light and heat in the environment?

.....

21. Why do we cover our gardens with dry grass?

.....

22. Which immunisable disease is prevented by putting drops of the vaccine in the mouth?

.....

23. What name is given to a female part of a flower?

.....

24. Why should we sleep under a treated mosquito net?

.....

25. Name one pest which can attack seeds in a store.

.....

26. Which gas is used by green plants during photosynthesis?

.....

27. Mention one way a child can keep his body clean.

.....

28. What do plants use for breathing?

.....

29. Name the instrument used to measure the human body temperature.

.....  
30. Why do some plants growing in dark places become yellowish with weak stems?

.....  
31. State any one disease of the skeleton.

.....  
32. What is the process by which vapour turns into water?

.....  
33. What type of tooth is shown below?  
.....

34. Give the importance of the first aid kit in a school.  
.....  
.....

35. Mention one danger of heavy rainfall.

.....  
36. How do we call the unwanted plants in the garden?

.....  
37. Identify any one animal found in a water pond.

.....  
38. What is **soil erosion**?

.....  
39. State the name given to moving air.

.....  
40. Give the gas used up when burning takes place.  
.....

**SECTION B.**

41. (a) What are communicable diseases?  
.....

.....  
(b) Name the insects which spread the following:

(i) Trachoma: .....

(ii) Sleeping sickness: .....

(iii) Plague: .....

42. (a) What is **first aid**? .....

.....  
(b) Write down two reasons why first aid is important.

(i) .....

(ii) .....

43. (a) Give any two sources of water.

(i) .....

(ii) .....

(b) Write down two uses of water to people.

(i) .....

(ii) .....

44. (a) Give the meaning of "**Environment**".

.....

.....  
(b) Write down any two components of the environment.

(i) .....

(ii) .....

(c) How do animals depend on plants in our environment?

.....

45. (a) State two reasons why people keep rabbits.

(i) .....

(ii) .....

(b) Mention 2 breeds of rabbits.

(i) .....

(ii) .....  
46. **The diagram below is of a fungus. Use it to answer questions which follow.**

Name parts labeled A and C.

A: .....

C: .....

(b) Give the use of part B to the fungus.

.....

.....

(c) How do mushrooms reproduce?

.....

.....  
47. (a) What is **temperature**?

.....

.....  
(b) List down 2 types of thermometers.

(i).....

(ii) .....

(c) What is the normal body temperature of a human being in centigrade scale?

.....  
48. (a) Give the meaning of **sanitation**.

.....

.....  
(b) Name any two things a clean home should have.

(i) .....

(ii) .....

(c) Write one activity a P.4 child can do to promote P.H.C at school.

.....  
49. (a) What is the meaning of **de-worming**?

.....  
.....

(b) Mention any two worms.

(i).....

(ii).....

(c) Which worm is useful to a farmer?

50. (a) Identify one way of caring for crops.

(b) Mention two ways of harvesting crops.

(i).....

(ii).....

(c) Name one crop propagated by use of seeds.

51. (a) What is **mulching**?

(b) State any crop that can be mulched.

(c) Give two advantages of mulching.

(i).....

(ii).....

52. (a) Name the instrument shown below.

.....

(b) Of what use is the instrument?

.....

.....

(c) Mention other two instruments found at a weather station.

(i).....

(ii).....

53. (a) What are **carbohydrates**?

.....

.....

(b) Write down any two sources of carbohydrates.

(i).....

(ii).....

(c) Give the deficiency disease caused due to lack of enough carbohydrates in the body.

.....

54. (a) What is **air**?

.....

.....

(b) What do we call moving air?

.....

(c) State any two gases found in air.

(i).....

(ii).....

55. (a) Write **O.R.S** in full.

.....

(b) Name any two substances used to make O.R.S.

(i).....

(ii).....

(c) Give one sign of dehydration in people.

.....

**\*\* The End. \*\***
